

PRINEXALCOHOLHIGIENIZANTE**SECTION 1: IDENTIFICATION OF THE SUBSTANCE OR MIXTURE AND OF THE SOCIETY OR COMPANY**

- 1.1 Product Identifier:** PRINEX ALCOHOLHIGIENIZANTE
- 1.2 Relevant identified uses of the substance or mixture and uses advised against:**
Relevant uses: Cleaner
Discouraged uses: Any use not specified in this section or in section 7.3
- 1.3 MSDS Supplier Data:**
Smart Air Concept S.L.
C/ Molino Chico , 24
30892 Librilla - Murcia - Murcia - España
Tfno.: +34 868 68 68 68
info@smartairconcept.com
- 1.4 Temergency phone:** 112

SECTION 2: HAZARD IDENTIFICATION

- 2.1 Classification of the substance or mixture:**
Regulation n°1272/2008 (CLP):
The classification of this product has been made in accordance with the regulation n°1272/2008 (CLP).
Spray 1: Pressure Vessel: May burst if heated., H229
Spray 1: Spray , category 1, H222
- 2.2 Label elements:**
Regulation n°1272/2008 (CLP):
Danger

Danger indications:
Spray 1: H229 - Pressure Vessel: May burst if heated
Spray 1: H222 - Spray highly flammable
Prudent advice:
P102: Keep out of children's reach
P210: Keep away from heat, hot surfaces, sparks, open flames and all other sources of ignition. Do not smoke.
P211: Do not spray on an open flame or other source of ignition
P251: Do not puncture or burn, even after use
P410+P412: Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F
- 2.3 Other dangers:**
The product does not satisfy the PBT/vPvB criteria

SECTION 3: COMPOSITION/INFORMATION ABOUT COMPONENTS

- 3.1 Substance:**
Not applicable
- 3.2 Mixtures:**
Chemical description: Aerosol
Components:
None of the substances constituting the mixture exceeds the values set out in Annex II from the Regulation (CE) n°1907/2006

SECTION 4: FIRST AID

- 4.1 First aid description:**
Consult your doctor if you feel unwell with this Safety Data Sheet.

- CONTINUED ON NEXT PAGE -

PRINEX ALCOHOL HIGIENIZANTE**SECTION 4: FIRST AID (continued)****By inhalation::**

In case of symptoms, move affected person to fresh air.

By skin contact:

In case of contact, it is recommended to clean the affected area with water and neutral soap. In case of skin alterations (itching, redness, rashes, blisters...), see a doctor with this Safety Data Sheet

By eye contact:

Rinse with water until product is removed. In case of complaints, consult a doctor with the SDS of this product.

By ingestion/aspiration:

In case of ingestion of large quantities, it is recommended to seek medical assistance.

4.2 Main symptoms and effects, acute and delayed:

Acute and delayed effects are those indicated in sections 2 and 11.

4.3 Indication of any medical care and special treatment to be given immediately:

No relevant

SECTION 5: FIRE FIGHTING MEASURES**5.1 Extinguishing agents:**

Preferably use multi-purpose powder extinguishers (ABC powder), alternatively use physical foam or carbon dioxide (CO₂) extinguishers, in accordance with the Fire Protection Installation Regulations (R.D. 1942/1993 and subsequent amendments). It is NOT RECOMMENDED to use water jet as an extinguishing agent.

5.2 Specific hazards arising from the substance or mixture

Due to its flammability characteristics, the product does not present a fire hazard under normal conditions of storage, handling and use.

5.3 Recommendations for fire-fighting staff:

Depending on the magnitude of the fire, the use of full protective clothing and self-contained breathing apparatus may be necessary. To have a minimum of emergency facilities or action elements (fireproof blankets, portable first aid kit,...) in accordance with R.D.486/1997 and subsequent modifications

Additional dispositions:

Act in accordance with the Internal Emergency Plan and the Information Sheets on action in the event of accidents and other emergencies. Eliminate any source of ignition. In the event of fire, cool the containers and storage tanks of products susceptible to inflammation, explosion or BLEVE as a result of high temperatures. Avoid spilling the products used in extinguishing the fire into the aquatic environment.

SECTION 6: ACCIDENTAL RELEASE MEASURES**6.1 Personal precautions, protective equipment and emergency procedures**

Isolate leaks as long as it does not pose a risk to those performing this function.

6.2 Environmental precautions:

Product not classified as hazardous to the environment. Keep the product away from drains and surface and ground water.

6.3 Methods and material for containment and cleaning up:

It is recommended:

Absorb the spill with sand or inert absorbent and move it to a safe place. Do not absorb into sawdust or other combustible absorbents. For any disposal considerations please refer to section 13.

6.4 References to other sections:

See sections 8 and 13.

SECTION 7: HANDLING AND STORAGE**7.1 Precautions for safe handling:**

A.- General precautions

- CONTINUED ON NEXT PAGE -

PRINEX ALCOHOL HIGIENIZANTE

SECTION 7: HANDLING AND STORAGE (continued)

Comply with current legislation on the prevention of occupational hazards. Keep containers hermetically closed. Control spills and waste, eliminating them with safe methods (section 6). Avoid free spillage from the container. Maintain order and cleanliness where dangerous products are handled.

B.- Technical recommendations for fire and explosion prevention

It is recommended to transfer at slow speeds to avoid the generation of electrostatic charges that could affect flammable products. See section 10 for conditions and materials to be avoided.

C.- Technical recommendations to prevent ergonomic and toxicological risks

For exposure control see section 8. Do not eat, drink or smoke in work areas; wash hands after each use, and remove contaminated clothing and protective equipment before entering eating areas.

D.- Technical recommendations to prevent environmental risks

No special measures are required to prevent environmental risks. For further information see section 6.2

7.2 Safe storage conditions, including possible incompatibilities

A.- Technical storage measures

ITC (R.D.656/2017): MIE-APQ-10
 Classification: Mobile container
 Minimum temperature: 5 °C
 Maximum temperature: 40 °C
 Maximum time: 24 months

B.- General storage conditions

Avoid sources of heat, radiation, static electricity and contact with food. For additional information see section 10.5

7.3 Specific end uses:

Except for the indications already specified, no special recommendation is necessary as to the uses of this product.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters:

Substances for which occupational exposure limit values are to be monitored in the working environment (INSST 2019)

Identification	Environmental limit values		
	VLA-ED	VLA-EC	VLA-ED
2-metil-2-propanol CAS: 75-65-0 CE: 200-889-7	100 ppm		308 mg/m ³
Ftalato de dietilo CAS: 84-66-2 CE: 201-550-6			5 mg/m ³
Etanol CAS: 64-17-5 CE: 200-578-6	1000 ppm		1910 mg/m ³
d-limoneno CAS: 5989-27-5 CE: 227-813-5	30 ppm		168 mg/m ³
Pin-2(10)-eno CAS: 127-91-3 CE: 204-872-5	20 ppm		113 mg/m ³
Citral CAS: 5392-40-5 CE: 226-394-6	5 ppm		

DNEL (workers):

No relevant

DNEL (Population):

No relevant

PNEC:

No relevant

8.2 Exposure controls:

A.- General health and safety measures in the work environment:

- CONTINUED ON NEXT PAGE -

PRINEXALCOHOL HIGIENIZANTE

SECTION 8: EXPOSURE CONTROLS/INDIVIDUAL PROTECTION (continued)

As a preventive measure, we recommend the use of basic personal protection equipment, with the corresponding CE marking in accordance with R.D.1407/1992 and subsequent modifications. For further information on personal protective equipment (storage, use, cleaning, maintenance, protection class,...) please consult the information leaflet provided by the PPE manufacturer. The information contained in this point refers to the pure product. The protective measures for the diluted product may vary depending on the degree of dilution, use, method of application, etc. In determining the obligation to install emergency showers and/or eyewashes in the stores, the regulations on the storage of chemicals applicable in each case shall be taken into account. For further information see sections 7.1 and 7.2.

All the information included here is a recommendation and must be specified by the occupational risk prevention services as they are unaware of any additional prevention measures that the company may have in place or if they have been included in the relevant risk assessment.

B.- Respiratory protection.

The use of protective equipment is required in the case of mist formation or in the case of exceeding occupational exposure limits if they exist (See Section 8.1).

C.- Specific hands protection

Pictogram	PPE	Labeled	CEN RULES	Comments
 Mandatory hand protection	Gloves for protection against minor risks			Replace the gloves at any sign of deterioration. For prolonged exposure to the product for professional/ industrial users, the use of CE III gloves is recommended, according to EN 420:2003+ standards A1:2009 and EN ISO 374-1:2016

As the product is a mixture of different materials, the resistance of the glove material cannot be reliably calculated in advance and therefore has to be checked before application.

D.- Face and Eyes protection

Pictogram	PPE	Labeled	CEN RULES	Comments
 Mandatory face protection	Panoramic glasses against splashes and/or projections		EN 166:2001 EN ISO 4007:2018	Clean daily and disinfect periodically according to the manufacturer's instructions. The use is recommended in case of risk of splashing.

E.- Body protection

Pictogram	PPE	Labeled	CEN RULES	Comments
	Work clothes			Replace at any sign of deterioration. For long periods of exposure to the product for professional/ industrial users, CE III is recommended, according to EN ISO 6529:2013, EN ISO 6530:2005, EN ISO 13688:2013, EN 464:1994
	Work shoes anti-slip		EN ISO 20347:2012	Replace at any sign of deterioration. For long periods of exposure to the product for professional/ industrial users, CE III is recommended, according to EN ISO 20345:2012 and EN 13832-1:2007

F.- Additional emergency measures

No additional emergency measures are required.

Environmental exposure controls:

Under Community environmental protection legislation, it is recommended that both the product and its packaging be prevented from entering the environment. For further information see section 7.1.

Volatile organic compounds:

In application of R.D.117/2003 and subsequent amendments (Directive 2010/75/EU), this product has the following characteristics:

C.O.V. (Supply):	84,9 % weight
C.O.V. concentration at 20 °C:	No relevant
Average number of carbons:	2,01
Average molecular weight:	46,28 g/mol

PRINEXALCOHOLHIGIENIZANTE
SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES
9.1 Information on basic physical and chemical properties:

For complete information see product data sheet.

Physical appearance:

Physical appearance at 20 °C:	Aerosol
Aspect:	Characteristic
Colour:	Characteristic
Smell:	Characteristic

Olfactory threshold: Volatility No relevant *

Boiling temperature at atmospheric pressure:	- 1 °C (propellant)
Vapour pressure at 20 °C:	No relevant *
Vapour pressure at 50 °C:	<300000 Pa (300 kPa)
Evaporation rate at 20 °C:	No relevant *

Characterization of the product:

Density at 20 °C:	No relevant *
Relative density at 20 °C:	No relevant *
Dynamic viscosity at 20 °C:	No relevant *
Kinematic viscosity at 20 °C:	No relevant *
Kinematic viscosity at 40 °C:	No relevant *
Concentration:	No relevant *
pH:	No relevant *
Vapour density at 20 °C:	No relevant *
Distribution coefficient n-octanol/water at 20 °C:	No relevant *
Solubility in water at 20 °C:	No relevant *
Solubility property:	No relevant *
Decomposition temperature:	No relevant *
Melting/Freezing Point:	No relevant *
Container pressure:	No relevant *
Explosive properties:	No relevant *
Oxidising properties:	No relevant *

Flammability:

Flash point:	-60 °C (propellant)
Flammability (solid, gas):	No relevant *
Auto-ignition temperature:	287 °C (propellant)
Lower flammability limit:	No relevant *
Upper flammability limit:	No relevant *

Explosiveness:

Lower explosion limit:	No relevant *
Upper explosion limit:	No relevant *

9.2 Other data:

Surface tension at 20 °C:	No relevant *
Refractive Index:	No relevant *

*Not relevant due to the nature of the product, not providing information characteristic of its dangerousness.

SECTION 10: STABILITY AND REACTIVITY

- CONTINUE ON NEXT PAGE -

PRINEXALCOHOL HIGIENIZANTE

SECTION 10: STABILITY AND REACTIVITY (continued)

10.1 Reactivity:

No dangerous reactions are expected if the technical instructions for storing chemicals are followed. See section 7.

10.2 Chemical stability:

Chemically stable under the indicated storage conditions, handling and use.

10.3 Possibility of dangerous reactions:

Under the conditions indicated, no dangerous reactions are expected that could lead to excessive pressure or temperature.

10.4 Conditions to be avoided:

Applicable for handling and storage at room temperature:

Shock and friction	Contact with air	Warm-up	Sunlight	Humidity
non applicable	non applicable	Risk of inflammation	Avoiding direct impact	non applicable

10.5 Incompatible materials:

Acids	Water	Oxidizing materials	Combustible materials	Others
Avoid strong acids	non applicable	Avoiding direct impact	non applicable	Avoid strong alkalis or bases

10.6 Hazardous decomposition products:

See sections 10.3, 10.4 and 10.5 for specific decomposition products. Depending on the conditions of decomposition, complex mixtures of chemicals can be released as a result of decomposition: carbon dioxide (CO₂), carbon monoxide and other organic compounds.

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects:

DL50 oral > 2000 mg/kg (rata).

Dangerous health effects:

In the case of repeated, prolonged exposure or exposure to concentrations above the occupational exposure limits, adverse health effects may occur depending on the route of exposure:

A- Ingestion (acute effect):

- Acute toxicity: On the basis of the available data, the classification criteria are not met. For further information see section 3
- Corrosivity/Irritability: In view of the available data, the classification criteria are not met. For further information see section 3.

B- Inhalation (acute effect):

- Acute toxicity: On the basis of the available data, the classification criteria are not met. For further information see section 3.
- Corrosivity/Irritability: In view of the available data, the classification criteria are not met. For further information see section 3.

C- Skin and eye contact (acute effect):

- Skin contact: On the basis of the available data, the classification criteria are not met. For further information see section 3
- Eye contact: On the basis of the available data, the classification criteria are not met. For further information see section 3.

D- CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction):

- Carcinogenicity: In view of the available data, the classification criteria are not met. For further information see section 3.

IARC: d-limoneno (3)

- Mutagenicity: In view of the available data, the classification criteria are not met. For further information see section 3.

- Reproductive toxicity: On the basis of the available data, the classification criteria are not met. For further information see section 3.

E- Awareness effects:

- CONTINUE ON NEXT PAGE -

PRINEXALCOHOL HIGIENIZANTE
SECTION 11: TOXICOLOGICAL INFORMATION (continued)

- Respiratory: In view of the available data, the classification criteria are not met. For more information see section 3.
- Skin: In view of the available data, the classification criteria are not met. For more information see section 3.

F- Organ-specific toxicity (STOT)-single exposure:

On the basis of the available data, the classification criteria are not met. For more information see section 3.

G- Specific organ toxicity (STOT)-repeated exposure:

- Organ-specific toxicity (STOT)-repeated exposure: On the basis of the available data, the classification criteria are not met. For further information see section 3.
- Skin: In view of the available data, the classification criteria are not met. No substances are classified as hazardous for this effect. For further information see section 3

H- Aspiration hazard:

In view of the available data, the classification criteria are not met. For more information see section 3.

ADitional Info:

Not relevant

Substance-specific toxicological information:

Not determined

SECTION 12: ECOLOGICAL INFORMATION

No experimental data on the ecotoxicological properties of the mixture itself are available.

12.1 Toxicity:

Not determined

12.2 Persistence and degradability:

Not available

12.3 Bioaccumulation potential:

Not determined

12.4 Mobility on the floor:

Not determined

12.5 Results of PBT and vPvB assessment:

The product does not meet the PBT/vPvB criteria

12.6 Other adverse effects:

Not described

SECTION 13: DISPOSAL CONSIDERATIONS
13.1 Waste treatment methods:

Code	Description	Type of waste (Regulation (EU) No 1357/2014)
16 05 04*	Gases in pressure vessels (including halons) containing dangerous substances	Dangerous

Type of waste (Regulation (UE) n° 1357/2014):

HP3 Flammable

Waste management (disposal and recovery):

Consult the authorised waste manager for recovery and disposal operations in accordance with Annex 1 and Annex 2 (Directive 2008/98/EC, Law 22/2011) According to codes 15 01 (2014/955/EU) in the case that the packaging has been in direct contact with the product it shall be managed in the same way as the product itself, otherwise it shall be managed as non-hazardous waste. Discharge into watercourses is not recommended. See section 6.2.

Legislative provisions related to waste management:

- CONTINUE ON NEXT PAGE -

PRINEXALCOHOLHIGIENIZANTE

SECTION 13: DISPOSAL CONSIDERATIONS (continued)

According to Annex II of Regulation (EC) No 1907/2006 (REACH), Community or State provisions related to waste management are set out.

Community legislation: Directive 2008/98/EC, 2014/955/EU, Regulation (EU) No 1357/2014

Spanish national legislation : Law 22/2011, Royal Decree 180/2015, Law 11/1997

SECTION 14: TRANSPORT INFORMATION

Land transport of dangerous products:

In application of ADR 2019 and RID 2019:

14.1 ONU number:	UN1950
14.2 United Nations official designation of transport	AEROSOLES flammables
14.3 Transport hazard class	2
Labels:	2.1
14.4 Packing group:	N/A
14.5 Environmental hazards	No
14.6 Particular users precautions	
Special arrangements:	190, 327, 344, 625
Tunnel restriction code:	D
Physical-chemical properties:	See section 9
Limited entities:	1 L
14.7 Transport in bulk according to Annex II to Marpol 73/78 and the IBC Code	Not relevant

Maritime transport of dangerous products:

In application of IMDG 39-18:

14.1 ONU number:	UN1950
14.2 United Nations official designation of transport	AEROSOLES flammables
14.3 Transport hazard class	2
Labels:	2.1
14.4 Packing group:	N/A
14.5 Environmental hazards:	No
14.6 Particular users precautions	
Special arrangements:	63, 959, 190, 277, 327, 344
FEm codes:	F-D, S-U
Physical-chemical properties:	See section 9
Limited entities:	1 L
Segregation group:	Not relevant
14.7 Transport in bulk according to Annex II to Marpol 73/78 and the IBC Code	Not relevant

Air transport of dangerous goods:

In application to IATA/ICAO 2020:

- CONTINUE ON NEXT PAGE -

PRINEXALCOHOLHIGIENIZANTE
SECTION 14: TRANSPORT INFORMATION (continued)

14.1 ONU number:	UN1950
14.2 United Nations official designation of transport	AEROSOLEs flammables
14.3 Transport dangerclass	2
Etiquetas:	2.1
14.4 Packaging group:	N/A
14.5 Environmental hazards	No
14.6 Particular users precautions	
Physical-chemical properties:	See section 9
14.7 Transport in bulk according to Annex II to Marpol 73/78 and the IBC Code	Not relevant

SECTION 15: REGULATORY INFORMATION
15.1 Safety, health and environmental regulations and legislation specific to the substance or mixture

Regulation (EC) No 528/2012: contains a preservative to protect the properties of the treated article. Contains ethanol.

Candidate substances for authorisation under Regulation (EC) 1907/2006 (REACH): Not relevant

Substances included in Annex XIV of REACH (authorisation list) and expiry date: Not relevant

Regulation (EC) 1005/2009 on substances that deplete the ozone layer: Not relevant

Active substances which have been included in Article 95 of Regulation (EU) No. 528/2012: Not relevant REGULATION (EU)

No. 649/2012 concerning the export and import of dangerous chemicals: Not relevant Regulation (EC) No. 648/2004 on detergents

According to this regulation the product complies with the following Labelling of the content:

Component	Concentration range
Aliphatic hydrocarbons	% (p/p) >= 30
Perfum	

Labelling in accordance with the Technical Health Regulations (R.D.770/1999)

Keep out of reach of children. Do not swallow. In case of accident consult the Medical Toxicological Information Service.

Seveso III:

Section	Description	Lower level requirements	Higher level requirements
P3a	AEROSOLEs FLAMMABLEs	150	500

Restrictions on the marketing and use of certain dangerous substances and mixtures (Annex XVII of the REACH Regulation, etc ...)

Not relevant

Special provisions for the protection of persons or the environment

It is recommended that the information collected in this safety data sheet be used as input in a risk assessment of the local circumstances in order to establish the necessary risk prevention measures for the handling, use, storage and disposal of this product.

Other legislation:

Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 and all subsequent amendments

PRINEXALCOHOL HIGIENIZANTE**SECTION 15: REGULATORY INFORMATION (continued)**

Regulation (EC) No 1223/2009 of the European Parliament and of the Council of 30 November 2009 on cosmetic products
Regulation (EC) No 648/2004 of the European Parliament and of the Council of 31 March 2004 on detergents and subsequent amendments
Commission Regulation (EC) No 551/2009 of 25 June 2009 amending Regulation (EC) No 648/2004 of the European Parliament and of the Council on detergents to adapt Annexes V and VI thereto (derogation on a surfactant)
Commission Regulation (EC) No 907/2006 of 20 June 2006 amending Regulation (EC) No 648/2004 of the European Parliament and of the Council on detergents, in order to adapt Annexes III and VII thereto
ROYAL DECREE 770/1999, of 7 May, approving the technical health regulations for the production, circulation and trade of detergents and cleaners.
Council Directive 75/324/EEC of 20 May 1975 on the approximation of the laws of the Member States relating to aerosol dispensers
Commission Directive 2008/47/EC of 8 April 2008 amending, for the purposes of its adaptation to technical progress, Directive 75/324/EEC on the approximation of the laws of the Member States relating to aerosol dispensers. Commission Directive 94/1/EC of 6 January 1994 technically adapting Council Directive 75/324/EEC on the approximation of the laws of the Member States relating to aerosol dispensers
Royal Decree 1381/2009, of 28 August, establishing the requirements for the manufacture and marketing of aerosol generators.
Royal Decree 473/2014 of 13 June amending Royal Decree 1381/2009 of 28 August establishing the requirements for the manufacture and marketing of aerosol dispensers.
Commission Directive 2013/10/EU of 19 March 2013 amending Directive 75/324/EEC on the approximation of the laws of the Member States relating to aerosol dispensers, in order to adapt its labelling provisions to Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures
COMMISSION DIRECTIVE (EU) 2016/2037 of 21 November 2016 amending Directive 75/324/EEC on the approximation of the laws of the Member States relating to aerosol dispensers, in order to adapt its labelling provisions to Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures

15.2 Chemical safety assessment::

The supplier has not carried out a chemical safety assessment.

SECTION 16: OTHER INFORMATION**Legislation applicable to safety data sheets:**

This Safety Data Sheet has been developed in accordance with the ANNEX II-Guideline for the Production of Safety Data Sheets of Regulation (EC) No 1907/2006 (Regulation (EU) No 2015/830)

Modifications to the previous safety data sheet affecting risk management measures

Not relevant

Texts of the legislative phrases referred to in section 2

H229: Pressure vessel: may burst if heated

H222: extremely flammable aerosol

Texts of the legislative phrases referred to in section 3

The phrases indicated do not refer to the product itself, are for information only and refer to the individual components listed in section 3

Regulation No. 1272/2008 (CLP)

Not relevant

Classification procedure:

Aerosol 1: Calculation method

Aerosol 1: Calculation method

Advice on training:

Minimum training in occupational risk prevention is recommended for personnel who will be handling this product, in order to facilitate the understanding and interpretation of this safety data sheet, as well as the labelling of the product.
